## Online Food Safety Training

### Basic Food Safety™ Online Course

Enhanced protection from foodborne illness is at your fingertips. Basic Food Safety™ is available in both English and Spanish and is written at an 8<sup>th</sup> grade reading level to assure comprehension. Offering easy navigation for minimal frustration, the course also presents video sequences and flash animation to highlight key points. Food safety training does not get any easier.

### 4 Simple Training Lessons

- **Foodborne Illness**—Teaches the type and extent of contaminants and their causes to help prevent them from occurring.
- **Personal Hygiene & Handwashing**—Includes personal cleanliness, the steps of effective handwashing, proper glove use, and relevant health issues.
- **Time & Temperature and The Food Flow Process**—Features information about the importance of maintaining proper temperatures, and examines the Food Flow Process.
- **Contamination & Sanitation**—Details proper food handling and prep, how contaminants move and grow, and key sanitation issues.

At the end of the course, a final quiz helps strengthen learning and rewards employees with a personalized Certificate of Achievement for successful completion.
